

March 2017

## Important information regarding CHDPs

Community Health Group wants to ensure that our physician partners are prepared. As you are probably already aware, the Department of Health Care services (DHCS) sent a notice to providers. This notice was a requirement to comply with the national care electronic transactions and code sets. The CHDP temporary (local) procedure codes will be replaced by CPT-4 procedure codes. **The standard Confidential Screening/Billing Report (PM160) will be replaced with the CMS 1500 claim form.** Reference: <http://files.medi-cal.ca.gov/pubsdoco/bulletins/artfull/chdp201703.asp>

**As of July 1, 2017, we will expect CMS 1500 claim forms in lieu of the PM160s.**

To prevent a negative drop in our HEDIS scores, we encourage providers to code their encounters with the appropriate codes. HEDIS measures that maybe **negatively** impacted by this change are well-child exams, body mass index (BMI), counseling for physical activity, counseling for nutrition, and immunizations. Below are the correct billing codes when submitting encounters to CHG:

<b>Body Mass Index (BMI)</b>	ICD-10: Z68.51- Z68.54	<b>Well child exams</b>	CPT: 99381-99385 or CPT: 99391-99395 or ICD-10: Z00.00, Z00.01, Z00.110, Z00.111, Z00.121, Z00.129, Z00.5, Z00.8, Z02.0-Z02.6, Z02.71, Z02.79, Z02.81-Z02.83, Z02.89, Z02.9
<b>Counseling for physical activity</b>	HCPC: S9461 or HCPC: G0447		
<b>Counseling for nutrition</b>	CPT: 97802- 97804 or ICD-10: Z71.3 or HCPC: G0270, G0271, G0447, S9449, S9452, S9470	<b>Childhood/ Adolescent Immunizations*</b>	Applicable vaccines for children: DTaP, IPV, MMR, HiB, Hepatitis B, VZV, PCV, Rotavirus, Influenza, Hepatitis A.  Applicable vaccines for Adolescents: Meningococcal, Tdap, and HPV

\*We **highly** encourage our providers to enter all immunizations into the San Diego Immunizations Registry (SDIR).

If you have any questions or need assistance please don't hesitate to call Gabriela Rubalcava, HEDIS Manager, at (619) 498-6535 or Adrian Arce, at (619) 240-8905.
