

Please circulate to others and file in your *Provider Manual* for future reference.

Important News Flash!

Community Health Group has been notified that the Department of Health Care Services (DHCS) will be conducting a site audit the week of June 26, 2017 – June 30, 2017. Part of the audit will include chart reviews and site audits of a sample of our primary care provider sites. **You may only be given 72 hour notice of the charts they will review and sites they will audit. Additionally, the regulators may ask CHG to collect the charts prior to the audit with only the same 72 hour notice.**

Please alert your staff that there is a possibility of an audit and we apologize in advance for any disruption this activity may cause.

If you are selected, please ensure the charts are available the day of the audit for review. You will be contacted by the DHCS Nurse Evaluator to schedule the audit.

If you have any questions, please call Elizabeth Martinez, Compliance Officer at (619) 498-6490.

Thank you in advance for your cooperation.
