

December 2017

Important information regarding CHDPs

Community Health Group wants to ensure that our physician partners are aware, the Department of Health Care services (DHCS) sent a notice to all Managed Care Plans to comply with the national care electronic transactions and code sets. The CHDP temporary (local) procedure codes will be replaced by CPT-4 procedure codes. **The standard *Confidential Screening/Billing Report (PM160)* will be replaced with the CMS 1500 claim form.**

For dates of services on and after January 01, 2018, we will expect CMS 1500 claim forms in lieu of the PM160s.

To prevent a negative drop in your HEDIS scores, we encourage providers to code their encounters with the appropriate codes. HEDIS measures that maybe **negatively** impacted by this change are well-child exams, body mass index (BMI), counseling for physical activity, counseling for nutrition, and immunizations. Below are the correct billing codes when submitting encounters to CHG:

Body Mass Index (BMI)	ICD-10: Z68.51- Z68.54	Well child exams	CPT: 99381-99385 or CPT: 99391-99395 or ICD-10: Z00.00, Z00.01, Z00.110, Z00.111, Z00.121, Z00.129, Z00.5, Z00.8, Z02.0-Z02.6, Z02.71, Z02.79, Z02.81-Z02.83, Z02.89, Z02.9
Counseling for physical activity	HCPC: S9451 or HCPC: G0447		
Counseling for nutrition	CPT: 97802-97804 or ICD-10: Z71.3 or HCPC: G0270, G0271, G0447, S9449, S9452, S9470	Childhood/ Adolescent Immunizations*	Applicable vaccines for children: DTaP, IPV, MMR, HiB, Hepatitis B, VZV, PCV, Rotavirus, Influenza, Hepatitis A. Applicable vaccines for Adolescents: Meningococcal, Tdap, and HPV

*We **highly** encourage our providers to enter all immunizations into the San Diego Immunizations Registry (SDIR).

If you have any questions or need assistance please don't hesitate to call Eric Reynoso at (619) 498-6531 or email at ereyno@chgsd.com
